

■■ Gym Attendance & Payment Platform – Business Plan

1■■ Problem Statement

Gyms face attendance tracking issues because many gyms don't have biometric gates. Users can enter without scanning or marking attendance, leading to revenue leakage. Platform needs to solve attendance + payment + fraud detection.

2■■ Core Idea

- Platform handles user payments for gyms.
- Users pay full monthly fee on platform.
- Gym owner receives agreed share.
- Attendance is tracked via QR scan, app location, or owner reporting fraud.
- Users get discounts/rewards if they pay via platform.

3■■ Attendance Tracking Methods

- QR Code Scan: Each gym has unique QR; users scan on entry.
- Geo-fencing: Location check-in to verify presence inside gym.
- Staff Validation: Staff can manually confirm user attendance.
- Fraud Proof: If user skips scan but works out, owner can submit proof (photo/video with timestamp + GPS).

4■■ Fraud Handling & Proof System

- Only in-app camera capture allowed (no gallery upload).
- Automatic timestamp & date embedded on photo/video.
- GPS tagging stored with submission.
- Fraud report generates case ID in dashboard.
- Platform reviews proof → fine/ban user for that month if fraud confirmed.

5■■ Revenue Model

• Gym charges (e.g., ■900/month) are collected via platform.

• Platform takes small commission (e.g., 5–10%).

• Users get small discounts, cashback, or reward points.

• Gyms benefit from transparent attendance reports + fraud prevention.

6■■ Benefits to Users

- Discounts & rewards for paying via platform.
- Cross-gym benefits (membership usable at multiple gyms).
- Attendance record for personal tracking.
- Better trust: transparent proof system avoids disputes.

7■■ Benefits to Gym Owners

- Automated payment collection.
- Fraud prevention system.

- Attendance dashboard of all members.
- Increased revenue from user loyalty.

8■■ Future Expansion Ideas

- Integration with smart locks for gyms with gates.
- AI-based face recognition attendance.
- Gamification: rewards for regular attendance.
- Partnerships with nutrition/supplement brands for extra discounts.
